

PeKay's Little Author for iPad

"PeKay's Little Author" is an application to create your own storybook, and we hope this may help to enrich children's time with their parents through the creation and sharing of original storybooks. This is very easy to use, no matter you are good at drawing or not.

Make your story with PeKay the piglet and his friends.

Create a story

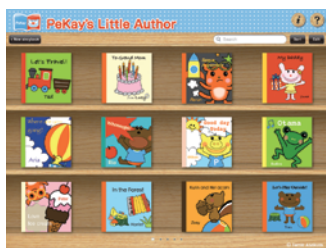

You can add your voice and sound to your storybook.

Print it out(*1) and make a small picture storybook.

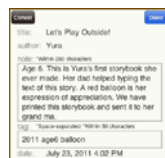

Tell and share a story

Display the storybook on your TV(*2), and enjoy it with your family and friends.

*1) You need a printer which supports "AirPrint". *2) In order to display on TV, you need "Apple Digital AV Adapter" and "HDMI Cable". The TV must have HDMI ports.

Each storybook will be stored in a bookshelf on Top page of this application.

Put your memo to each book.

Send an on-line storybook.

Actual book size : about 2.6 inch square (Letter size paper)

"PeKay's Little Author" 's Hope :

We believe sharing the time of creating and telling a story with your family and friends provides very good experience to children, helps their growth and expands his/her thoughts and appreciation to the human relationship. We hope this application helps that, and give a wonderful moment with enjoyment.

The characters in "PeKay's Little Author" are dear friends from "PeKay's House"
